FARMERS MAY PROTECT HOMES FROM SEIZURE BY FORCE IF NEEDED

Saskatoon:—Farmers of Saskatchewan will take active steps to defend their farms and homes against tax sales and evictions.

A wave of indignation swept over the convention of the United Farmers of Canada, Saskatchewan section, as speakers told the delegates they could look for wholesale seizures and evictions during the coming autumn.

By an unanimous vote the convention passed a resolution declaring: "Whereas the economic conditions of agriculture in Saskatchewan have reached a position where it is necessary for this organization, the United Farmers of Canada, Saskatchewan section, to take a definite stand for the protection of the homes of the people."

"Therefore be it resolved that every local lodge should constitute itself a defense unit for the protection of our homes against seizures, evictions and forced sales and cooperate with other organizations with this end in view."

Passage of the resolution climaxed a debate in which many farmers declared the law was forcing the hands of municipalities and driving them to make forced collection of taxes. Throughout it was stressed the importance of desire to evade payment of taxes when they had the means to pay. They objected to being forced out of their homes because they had no money to pay through no fault of their own.

"We don't want anybody to get ahead of us," said Joseph Joseph, "We want to keep within the law but the law is always on the other side."

High Jones, of Eldersley, told of leading a demonstration in his own district against a mortgage sale and urged the convention to put itself on record to give support to further action.

"We will take some action this fall," he declared. "We don't want to do anything contrary to law but we have got to protect our homes. Further emphatic statements came from A. J. Macaulay, president of the association. "One thing was not done, he predicted many people in Saskatchewan would be turned out on the roads in the fall with nothing left of their possessions."

While not a single vote was cast against the resolution a number of delegates came to the defense of municipalities.

HIGH HOPES FOR A SHARP REDUCTION IN CARRYOVER OF CANADIAN WHEAT DIE

Ottawa:—The high hopes held for a sharp reduction in the carryover of Canadian wheat at the end of the current crop season on July 31, have been dashed to the ground. Instead, the Dominion hopes in prospect the largest carryover in the history of its grain trade.

"This condition faces the Canadian government just as it faces the law of Canada," said a statement from the Canadian government. "It is a notable fact that since early in June, Canadian wheat has been the cheapest wheat offered at Liverpool on a c.i.f. basis, yet the dearer Argentine and Australian wheat has sold equally well in foreign markets. Does this mean that Canada, through trade restrictions in the form of tariffs, has lost her hold in world markets?"

Rapidly diminishing exports in the last three months of this crop year have accounted in large measure for the accumulation of wheat supplies in Canadian elevators at a time when the world market should have been clearing the way for a new crop. This and the rush of wheat from farms in western Canada during June and July, and the withdrawal of the five cent bonus completely shattered the calculations of statisticians who had figured on the smaller wheat carryover since 1928.

On July 31, this year, the carryover of Canadian wheat was approximately 135,000,000 bushels.

LOCAL THINGS

Andy Fraser who is an object of admiration in Strathmore, is a man of broad heart and a good nature. He is a man of broad heart and a good nature. He is a man of broad heart and a good nature.

Many, I'm sorry to tell you that the person who married you last night, was a man of broad heart and a good nature. He is a man of broad heart and a good nature.

MARKETING OF THIS YEAR'S WHEAT CROP A BIG PROPOSITION

The Royal Bank monthly letter reviews the wheat situation as follows:

The marketing of this year's wheat crop, which is unofficially estimated at from 400 to 450 million bushels, will present a problem of large proportions. In addition to this year's crop there is a carryover of more than 100 million bushels from last year. This is a reduction from the stocks on hand in Canada a year ago, but world

stocks, estimated as at July 1st by the U. S. Department of Agriculture at 410 million bushels against 424 million bushels in 1931, are heavy. Argentine and Australian supplies, as well as Canadian are smaller than last year, but these decreases are partially offset by an increase of 10 million bushels in the United States.

Conditions in the United States have been unfavorable in the winter wheat area and the outlook of this crop was officially estimated at 125 million bushels as at July 1st against 750 million bushels in 1931 and a five year average of 640 million bushels. Acreages sown to spring wheat were increased over 1931 and the outlook for this crop is much better. The indicated production of all wheat is placed at 737 million bushels against 594 million bushels last year and a five year average of 529 million bushels. Domestic requirements practically approximate the total wheat crop. Exports from the United States since 1929 have never failed to exceed 125 million bushels a year. These conditions suggest a substantial reduction in the wheat stocks during the coming crop year.

Crop conditions in Western Europe have been favorable, but unfavorable in the Danube Basin. The total acreage sown to wheat is somewhat less, but for the whole of Europe harvests are expected to be about the same as last year. While wheat production in France, Germany, Spain, Belgium and Holland is estimated at 657 million bushels as compared with 580 million bushels in 1931, the crops in Romania, Hungary, Bulgaria and Yugoslavia are unofficially placed at 245 million bushels against 364 million bushels in 1931. Unfavorable weather has since been reported in Italy and France, but the outlook will be large. The wheat crop in the United Kingdom has been reported as below average. In Russia, sowings of winter wheat were larger than in 1930-31, but spring crops are small. Production is expected to be about 100 million bushels. Home consumption of white bread is being encouraged and it is expected that Russia will be able to increase wheat exports. Shipments during the current season to July 23rd have amounted to 71 million bushels as compared with 91 million bushels in the corresponding date last year.

Perishing surplus has characterized the world wheat situation during the past four years. Available supplies have continuously exceeded annual requirements, even after large diversions into lower price outlets, such as increased use as animal feed, heavier consumption in India and greater exports to China. Imports by China in 1931, amounting to 50 million bushels, were the largest since the eight times greater than in 1920 and four times those of 1929. Canada supplied 15 per cent of China's imports. The United States 18 per cent and Australia 65 per cent. The bumper wheat crop of 1928 was primarily responsible for the emergence of these large surplus supplies. Economic depression since 1929 has contributed to the other nations have quoted, on widespread foreign restrictions on imports have been the major influence tending to hold down total consumption. Since exports, the outcome of the Soviet policy, have been important during the past two years. Measures to reduce the surplus, such as restriction of consumption or restrained its expansion, stimulated home production and increased the total consumption. Since the solution of the problem of wheat surplus seems to be dependent on increased consumption, rather than upon a general decrease in production, the desired balance may have to await a restoration of a more normal state of international trade.

THE BRITISH WHEAT MARKET

Winnipeg:—When Mr. Joseph Chamberlain made his programme speech at Glasgow, Oct. 6, 1902, this is what he said about wheat and flour:

"I propose to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources. I propose to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources. I propose to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources."

Mr. Chamberlain's policy was to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources. I propose to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources."

Mr. Chamberlain's policy was to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources. I propose to put a low duty on foreign corn (wheat), no duty at all on the corn coming from British sources."

NEGOTIATIONS BETWEEN BRITAIN AND CANADA MOST ENCOURAGING

Ottawa:—Great Britain and Canada are on the verge of agreement.

A day of negotiations between Premier Bennett and Rt. Hon. Stanley Baldwin, leader of the British delegation, has lifted the lowering clouds. The tension of both delegations has yielded to the smiles of approaching success.

Russian dumping has been a chief stumbling block—a reported already out of the way.

Three methods of handling Russian dumping were first submitted—an embargo, limitation by quota, the establishment of a three per cent tariff instead of the straight 10 per cent preference now granted by Great Britain on Empire flour.

HORNBY DECAPITATED

Rogers Hornby's decapitation by the men who own the Chicago Cubs, came as a surprise, but the action by no means stamps the rajah as a managerial failure. Less than two years ago the chewing gum magnate also gave Joe McCarthy his walking papers. (Can you look where Joe is today) because the team was beaten a few points for the pennant. Outside of his work in Chicago, Hornby proved his worth as a leader with the Cardinals and also while subbing for John McGraw while on the Giants payroll. With the material supplied at Chicago, Rogers did about as well as could be expected. One of Hornby's weaknesses, if you care to call it that, is of speaking his mind freely at all times. He is blunt with the players and equally so with his employers. Many managers have a habit of being autocratic with the hired hands and knowing to the bone, but not so the Texas. (Probably that is the reason he has made so many changes during the last few years to become popular with the players, nor even, at the height of his brilliant career, was he ever the idol of the fans, but nowhere was he held in greater respect than by the men who played with and against him. The expression of Jack Wilson, that Hornby was a great player and manager and he regretted him long out, may be regarded typical of the baseball fraternity. Hack had no reason to love the rajah, who benched him and traded him away from Chicago but like Hornby himself, he is a real man, able to respect the qualities of his former manager.

SHIRES—THE GREAT
THROUGH FOR THE YEAR

Boston—"Whattaman" Shires has tucked away his first baseman's mitt and his uniform. For the remainder of the season and began nursing his crippled knee until it is well enough for him to show he really is a big time baseball player.

He applied for voluntary retirement at the suggestion of President Emil Fuchs, of the Boston Braves, who agreed to pay his salary in full for the year and to pay all doctors bills.

Shires has faced the prospect of being left to his own resources for Manager Bill McKeehan of the Braves, ordered his unconditional release after the first base man balked at the idea of being traded to a minor league club. Judge Fuchs, who was in New York at the time, countermanded the order.

AMERICAN CREWS FOR C.N.R.
DINERS WITHIN THE U.S.A.

Sarnia.—Fifteen American residents of Port Huron of vicinity will be given employment on dining cars of the Canadian National Railways and the Grand Trunk Railway system, operating west of the international boundary line between Canada and the United States, as a result of an agreement between the C. N. R. and the United States Immigration authorities.

M. A. Coykendall, Port Huron, Inspector in charge of the United States Immigration, announced recently that the C. N. R. officials of Toronto on Wednesday telegraphed John L. Zurbick of Detroit, District Director of Immigration, that the Canadian dining cars on which forty Canadians were employed will not pass into the United States and on to Chicago as formerly.

The Canadian dining cars will be stopped at Sarnia and three five-man American crews will man dining cars between Port Huron, and Chicago. How this arrangement will affect the number of Canadian employees on dining cars, Mr. Coykendall said, he did not know, except that they will not be permitted to work in the United States.

The new arrangement which was discussed a week ago when officials of the railroad from Canadian and American cities met in my office at the tunnel depot, are exactly as we proposed. Mr. Coykendall said. The new plans provide work for about fifteen men formerly unemployed and prevent Canadians from working west on American soil.

HEARD ON THE STREET

"At last, my angel," said the happy man, after he had settled with the minister, "we are really and truly one."
"Theoretically, yes," rejoined the modern bride, "but from a practical standpoint it will be advisable to order dinner for two."

"Evidently the dead can not communicate with us. We managed once to borrow a liver from a Scotchman. A week later he died, and we haven't heard a word since."

"Mother, you must have known our principal when you went to school!"
"Why, yes, I guess I did."

"He seemed to remember you to day," he told me what a bright girl I was, and then he said, "It really doesn't seem possible that you can be any Brown's daughter now."

"Look here, Bogus," asked Colonel White, "do you happen to know where Ink Johnson is for a job, sah?"

"Yassah! Yassah! She does, sah!" replied brother Bogus. "He's asleep six minutes over dar in the shade of the lumber yard, lookin' for a job, sah."

Teacher—Wittle, what is an adult?
Wittle—An adult is one that was stopped growing, except in the middle.

"Remember when you cured my rheumatism a couple of years ago?" asked the patient, and you told me that I should avoid dampness?
Yes, that right, maddled the M. D. appropriately.

Well, I've come to ask you if I can take a bath.
When a party were out on a motorin' trip last week, and a large jack rabbit occupied the roadway for a while, a little lad enquired: "Daddy, what's that?"

"A rabbit," replied daddy.
"What kind of a rabbit, Daddy?"
"A daddy rabbit, my son."

"Oh, Daddy, do they stay out late at night like the real daddies do?" came the climax.

INTERNATIONAL HARVESTER CROP PRICE GUARANTEE

Take advantage of this offer...
Get the new equipment you need
to reduce your production costs

Many farmers who need new machines for the economical production of their crops have been reluctant to buy them because of uncertainty as to the prices they will receive later in the year for these farm products.

In order to meet this situation, the International Harvester Company of Canada, Ltd., offers to farmers purchasing machines after this date, a definite price guaranty on wheat based on 77 cents a bushel for No. 1 Northern at Winnipeg, applying to a liberal portion of the purchase price of the machine. If the market price for wheat does not reach the guaranteed price at the time payment becomes due on notes given and maturing this year, the purchaser of machines under the plan will receive a credit equal to the difference.

Any farmer in Canada, regardless of where he lives or what he raises, can purchase McCormick-Deering farm machines under the terms of this offer.

This is your chance to replace wornout and obsolete equipment on a favorable price basis. Let us explain the details of this remarkable plan and tell you just how to take advantage of it in equipping your farm with the new cost-reducing machines you need at a real saving.

THE BROWNLEE
GOVERNMENT PROPOSED
MUNICIPAL PLAN

The suggested plan by the Brownlee Government to change the Municipal Districts from about 160 to about 40 has created no little interest among the ratepayers.

The plan is quite a radical one and worthy of a very close scrutiny.

In commenting upon the proposal, the Innisfail Province says that:

Some few weeks ago the Government of Alberta announced some plan for cutting down the number of Municipal Districts in the Province by consolidating from six to eight of the present districts into one. This making in all about six districts. This number has since been revised to 60.

This scheme at first view makes an appeal but it is too big a proposition for the people to be stampeded into without considerable thought and careful study.

The whole question is whether the scheme will lessen municipal taxation and at the same time give efficient service.

There are services now provided

by the Government which will no doubt be shifted to the enlarged Municipal Area. The manager system of handling the road work would no doubt be a part of the scheme and staff required would be increased staff and expenditure.

The question of the adjustment of the bonded debts of the several municipal districts, their equitable distribution over the enlarged district. The arrears of taxes due the several units and their division when collected.

There are an infinite number of questions that should be carefully considered and worked out before the municipalities rush into this new idea.

The scheme on the face of it looks as though it would relieve the Government at Edmonton of some present expenditures but as to the municipalities involved there is a question.

Already the Municipal district of Spruce Grove has filed a protest with the Government stating that they do not want to be included in the new scheme.

Councillors and taxpayers generally will do well to give this question very careful consideration.

SPECIAL EDITION
OF THE
CALGARY HERALD

The Special Edition of the Calgary Herald issued upon their occupying of the their new home, in the Herald Block was very complete and decidedly interesting to their many friends who have watched with keen interest the development of the Herald, especially since coming under the control of the Southern interests and under the direction of Li 'ol J. H. Woods, and his right hand man O. I. Spencer, each of whom have been associated with the Herald since 1908, and each of whom have hosts of personal friends among the publishers of Alberta, one and all of whom will join in wishing them health, for many years to direct the policy and progress of the Herald.

'PRODUCERS OF QUALITY PRINTING'

DRIVE TO IMPROVE EGG
GRADES IS NOW
UNDER WAY

Alberta egg producers have the poorest record in grading of any province in the Dominion, says Inspector Ennis, chief of the Provincial egg grading department who conferred with local growers. Mr. Ennis, who was accompanied by Inspectors Donnell and Davies, stated that 52 per cent of Alberta's eggs graded as seconds due largely to careless management of poultry farmers. It is the intention of the department to bring this percentage down to around twenty. Mr. Ennis remarked when interviewed by The Mail.

The Inspector stated that Camrose and Stettler had serious records with 45 per cent of eggs graded as extras. This was due to the establishment of an egg grading office in the respective town and educational campaigns among the farmers.

Cleanliness materially helped to bring eggs up to high grades, he stated, as eggs were placed in lower grades if coated with dirt. Farmers should keep nests clean, he said, if high grades were desired.

Plans were made with local merchants to open an egg grading office on Centre street north, near the Canadian Legion hall, with C. L. Harper in charge. In future, all farmers selling eggs to stores or private homes, will be compelled to visit the egg grader before disposing of his goods. The only exception allowed is in the case of farmers who solicit orders for delivery the following week.

After Monday next stores will offer graded eggs for sale, thereby giving protection to the customer and at the same time encouraging farmers to market only clean, new laid eggs. The newly appointed egg grader is being instructed in his duties this week and it is possible that one Inspector will spend several days in the district until the government regulations are thoroughly understood by all parties concerned.

Under the regulations, farmers will be given a certificate showing the grades of his produce which he

must show to the purchaser. Storekeepers selling eggs over the counter must have containers or baskets marked with the grade and eggs delivered in response to telephonic orders, must be enclosed in marked cartons.

The farmer will be called upon to pay one cent per dozen for the egg grading service. By enforcing the egg grading regulations, it is hoped to raise the standard of the industry in this area. A penalty of \$25.00 is inflicted for infractions of the regulations and all storekeepers have been called upon to deposit a \$25.00 bond as a guarantee that they will abide by the regulations.

—Drumheller Mail

I've just shot a dog.
Was he mad?
Well, he wasn't very pleased.

Reporting a court case, the lawyer who was a witness, said in examination, that he was the best lawyer in Alberta. A friend told him to task for praising himself. "I know," he said, "it perhaps sounded conceited, but remember I was on oath."

A number of Donkhor women, in jail at Nelson, were reported last week as having "nothing on but a hunger strike."

LATEST IMPROVED Coleman Iron

"Smooths the Way on Ironing Day"

Model No. A-A

CUT your ironing time one third... finish ironing day troubles! You can do it with the new Instant-Gas Iron. You can do better work, too, do it easier and faster.

The Coleman Lights instantly... no waiting. Has Roto-Type Generator with cleaning needle which can be operated while burning. Makes and burns its own gas from regular motor fuel.

Use your Coleman anywhere... in the coolest room, or out on the porch. Pointed at both ends... forward and backward strokes give the same wrinkle-proof results. The point is always hot. Tapered soleplate, which makes it easy to iron around buttons, under plates and along seams. Beautifully finished in blue porcelain enamel and gleaming nickel.

GRAIN IN THE CEREAL DIST

—(O)—

The first load of 1932 wheat was
combined Saturday afternoon. It
was Mersey Perrier and delivered to
the Searle Grain Co. that night.
The wheat was a good sample
and had only a small per cent of
green kernels. It was easily a No.
1 grade. The cutting was done on
the razed edge of a field of
stable land and the sowers and
saw files had taken a big toll. Mr.
Perrier estimated that the yield
would be about 8 bushels to the

HIGH HOPES FOR A SHARP
REDUCTION IN CARRYOVER
OF CANADIAN WHEAT DIE—(O)—
Continued from front page

Aluska took a large share of
Canada's trade in the opening
months of the season. August to
October, 1921, they followed the
competition of Argentina and Aus-
tralia in January. This proved to
be a disaster for the Canadian
only within the past month or so
has Canada increased appreciably
her overseas shipments of wheat.

Many in the trade are of the be-
lief that the conference now in
progress at Ottawa has slowed up
wheat trade in wheat very consid-
erably. Importers who would not
nearly be accumulating wheat for
merchandising within the next two-
months are thought to be afraid of
developments at Ottawa which
might affect their position as
holders of unsold wheat.

There has been talk of a quota
plan of tariff, imperial prefer-
ences, and of exchange stabili-
ties, and all or any one of these
carry risks for the trader in grain.
This may or may not have accom-
plished for smaller shipments to de-
ficient countries, but it hardly an-
swers for the poor shipping. That
Canada has made in recent weeks
with wheat of the highest quality
to sell and at prices below those
of her competitors.

—(O)—

Langdon Notes

The W I Constituency Confer-
ence held at Mossleigh on August
2nd was attended by Mrs. H. Dehn,
Mrs. W. Bruden, Mrs. C. Jeery, Mrs.
E. Moir and Mrs. P. Fulton.

On Wednesday August 3rd the
Women's Institute members and
friends were delightfully entertain-
ed at the home of Mrs. M. C. Sal-
mon in Calgary. Afternoon tea was
served on the lawn; those assist-
ing the hostess in serving were
Misses Lela Staden, Kath-
leen Moir and Lila Schafer and
Joan Salmon.

Mrs. H. Crilly, Mrs. J. Bates and
Mrs. G. Crilly were visitors at the
S P Slater home, Strathmore, last
Tuesday.

Mrs. A. Smart and children are
holidaying at Sylvan Lake.

A Division of C. G. H. held at the
home of E. Moir.

Langdon Lodge C O F held a
picnic at Carleland Bridge Sunday
afternoon and a splendid time was
reported.

G. Maclean has gone to help
Gengrich Brothers of Majorville
with harvesting.

A McNeil and family are at Van-
cover for their holidays, going

—(O)—

THE BRITISH WHEAT MARKET

—(O)—
Continued from Front Page

less the domestic quota, will give
more assurance that things are
working in that direction that the
further raising of tariff walls in
interfering with the movement of
wheat. Free access to the British
market for our wheat is all that
we have the right to ask or expect.
Given this, we have the opportu-
nity of enlarging our sales in that
market to its maximum receptive
capacity by facilitating its pur-
chase through making available
the means by which these pur-
chases can be made—that is, by
supplying a wider market here in
Canada for British goods. Tariffs,
preferences, quotas—what you
will—not do us much to enlarge
the sale of our products to Great
Britain if we do not take pay for
them in British goods.

Here, further in the field the
grain was much better. There
were dozens of binders cutting
last week and, beginning Monday,
nearly every farmer in the district
was harvesting or getting ready
to cut. There has been no rain to
spoil or to make. What crop we
have has battled through the in-
tense heat and it is truly a wonder
that it is as good as it is.
While we missed a big crop on ac-
count of the rain being just three
weeks early and not continuing
long enough, we still have lots of
wheat of a good grade, and we
ought to be thankful we are no
worse. There will be lots of feed,
both hay and oats. Some fields of
oats will be good enough to
thresh while others will have to be
cut with a mower and raked.
And that's that.

THEY ARE REAL GOOD

A Great War!
A Great Pestilence!
A Great Depression!

4 ALL within twenty years. Could there
be a more grueling test?

4 Yet life insurance stands invincible. During
that whole period it paid every obligation
promptly and fully—as it has ever since the
Dominion was formed.

4 The Sun Life Assurance Company of
Canada itself paid to policyholders and
beneficiaries in cash during these periods—

The War (1914-1918)

The Flu (1919)

The Depression (1930-1931)

—over \$226,000,000. It has paid to its
policyholders and beneficiaries since forma-
tion nearly \$600,000,000.

In prosperity, life insur-
ance is valuable; in adver-
sity it is indispensable.
The protection of your
home, the security of
your business, the com-
fort of your old age, de-
pend first on adequate
life insurance.

Have you enough?
